

Eggton's blackberry sauce for ice cream or yogurt

Ingredients

12 oz. blackberries

2 Tbsp. sugar (or more, to taste)

2 Tbsp. fresh lemon juice (from about 1/2 lemon)

Directions

Whiz half of the blackberries in a blender with the sugar and lemon juice. Strain through a thin-meshed sieve into a bowl, using a spoon to press all the juice through. Discard the seeds remaining in the sieve. Taste and adjust sugar and lemon as you see fit. Add the remaining whole blackberries, or serve those alongside.
